REISEMOBILE AUS LEIDENSCHAFT

Welcome to the world of Concorde luxury motorhomes.

Let yourself be inspired by the unique Concorde class. With unusual design, many innovations and the associated high quality, we create the values that provide you the customer with wonderful experiences, unforgettable memories and moments that are in a class of their own.

The energy and passion that our employees put into producing our vehicles is reflected in your motorhome. Our many years of experience and dedication guide us to our goal of making your dreams come true.

Michael Schmitt
Managing Director of Concorde Reisemobile GmbH

“WE ARE PASSIONATE
ABOUT MOTORHOMES”
FOR MORE THAN 40 YEARS

Our success story began in 1981. The many years of experience make us pioneers in this industry. Concorde has been based in Schlüsselfeld-Aschbach (Germany) for more than 28 years and, thanks to a committed management team that has experience in the industry, has developed there into an attractive location with a state-of-the-art motorhome production facility.

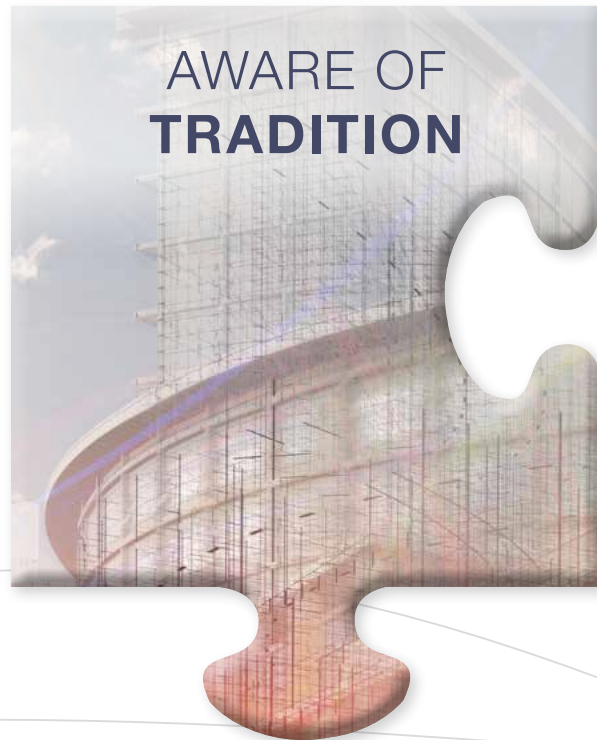

Around 400 exclusive, in some cases highly customized, luxury motorhomes leave our factory every year. The precisely balanced combination of individual craftsmanship and precision technology is a key factor in the production of our vehicles.

Our motorhomes are often referred to as land yachts, thereby elevating them to absolute premium products brimming with innovation, precision and passion.

EXPERIENCE QUALITY.

Over its more than 40-year history, Concorde Reisemobile has developed from a pioneer of German motorhome construction into an innovation driver in luxury motorhome production.

Our unique and exclusive Concorde space and light concept or the phenomenal Concorde storage space concept together with the ergonomic cockpit design create an unmistakable wellness experience.

THE CONCORDE CLASS.

OUTSTANDING INNOVATION

Our own innovations with extraordinary functionality combined with excellent design catapult our motorhomes into the premier league of the luxury sector.

UNRIVALLED QUALITY

The appearance and workmanship characterized by top manufacturing quality and exquisite materials and furnishings maximise sustainability and retain value.

CREDO

CLIMB ABOARD THE CONCORDE CLASS

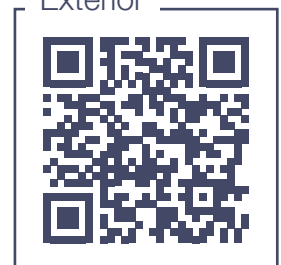

Traditionally, the Concorde Credo has always been the entry-level motorhome of the Concorde class.

It's obvious at first glance that the Credo is a true Concorde. The large bus mirrors, the bus windscreen wipers and the optional exterior design in Centurion style are unmistakable elements of the Concorde DNA. The frameless and flush-mounted side windows in the driver's cab are particular quality features of the Credo.

Price list

Exterior

The wellness oasis with separate toilet room offers them a spacious area for their personal refreshment. Two doors separate it from the bedroom and living room.

The coach-style rear-view mirrors, which are elegant and ensure optimum visibility, increase active safety while driving and, above all, when manoeuvring.

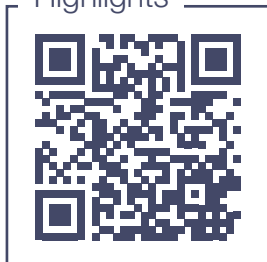

A remote control, which is integrated in the ignition key of the basic vehicle, automatically locks and unlocks the entrance door.

The steering wheel, which is easy to remove and attach, provides a significant increase in comfort, freedom of movement and safety with its functionality optimised by Concorde.

CONCORDE DNA - VISIBLE AT FIRST GLANCE

Of course, our motorhomes impress at second glance too. For example the living room in the Concorde Credo. A bright, friendly living environment and the decorative, upholstery and carpet fabrics are all perfectly matched to the furnishings. Alternating convex and concave surfaces and the "Concorde One Level Concept" create a continuous spatial impression from the driver's cab all the way to the bedroom.

The kitchen is a clear statement of quality and function in Credo. With its three-flame cooker, single-lever mixer tap, perfectly integrated sink, kitchen waste container or multifunctional hanging rail, the large kitchen of the Credo models sets standards in its class, both in ergonomics and in design and function.

THE LUXURIOUS WELLNESS EXPERIENCE

You enjoy a refreshing start to your day? No problem. The bathroom in the Concorde Credo models also provides plenty of space. By closing the doors to the living room and bedroom, the separate shower and toilet are instantly transformed into a spacious bathroom with dressing room.

To help you relax after a busy day, our designers have really thought of everything in the sleeping space of the Concorde Credo models. Apart from the generously proportioned bed, there is also the Concorde sleeping system: A perfect combination of comfortable mattress with spring base which ensures a particularly peaceful and restful sleep.

CARVER

LUXURY MADE EASY

The Carver makes mobile luxury easy.

With its Concorde-typical exterior design, the Carver visually conveys a certain lightness in spite of its voluminous appearance.

In fact, the Carver reduces its weight through the intelligent use of materials. Despite its material lightness, the vehicle features a plethora of innovative technology, tried-and-tested functionality and a high degree of winter hardness.

Price list

Exterior

Two aluminium frames in the Charisma's double floor ensure an extremely stable "basement construction" by connecting the auxiliary frame with the living area floor, creating a solid box. This clever construction means that furniture and wall constructions remain firmly connected in the long run.

The elegant and functional aluminium front blind provides the required privacy and protects against unwanted sunlight.

Even mobile homes need a sound foundation. This is ensured by sturdy machine screws that sturdily secure the bottom floor of the chassis.

The heated double floor with substantial interior height offers a generous amount of storage space and is easily accessible through the large storage space flaps, which can be rotated by 180°.

STYLISH AND FUNCTIONAL

The kitchen is among the highlights of the Carver. The ergonomic kitchen ensemble with mineral kitchen worktop, stainless-steel hob and stainless-steel sink as well as the typical household accessories has been thought out by us down to the last detail and is combined with optimum room usage and exemplary equipment.

The living room provides a perfect combination of functionality and comfort with ergonomically shaped seating group and a lightweight furniture concept with a range of design variants.

OASES OF WELL-BEING AND RELAXATION

Not only the Carver has a smart appearance, so too do its owners. Ensuring this is the spacious bathroom with its separate shower, toilet, washbasin, numerous storage areas as well as a large wardrobe. Hygiene, cleanliness and visible care are apparent not only in the "all-round" mirrors.

For external care of the body to continue, the sleeping area offers maximum comfort. A special spring base, comfortable cold-foam mattresses as well as cushioned headrests ensure relaxing and healthy sleep.

THE CLASSIC

The classic among the land yachts.

The Charisma stands for all of the values Concorde represents with its company philosophy: innovation, quality and passion. Demonstrated by state-of-the-art and innovative vehicle technology, luxurious and practically oriented equipment as well as artisanal passion and material quality.

The current generation embodies progressive design, intelligent technology and uncompromising comfort and is a leader in style and exemplary for luxury motorhomes, also known as land yachts.

Price list

Exterior

Storage space „en masse“: Through the optimum utilization of the storage resources on board, it has been possible to create space for drawers, cabinets and work surfaces despite the limited space availability.

The dashboard is ergonomically designed so that the driver always has the essential vehicle data in sight and can easily reach all function switches and levers.

The multifunctional adjustable hot water heating system creates three different warm areas which can be heated separately from each other. The two-circuit underfloor heating enables separate control of living room and bathroom.

The double floor offers an optimal through-loading capacity over the entire vehicle width, for skis, surfboards or other boards and bulky objects in general.

THE ALL-ROUNDERS

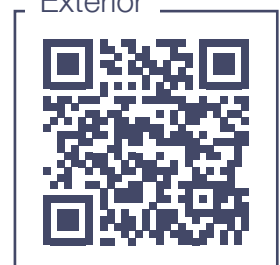

The perfect combination of mobility, size and performance.

The Cruiser represents the alcove tradition at Concorde. Proven technology and comfortable equipment are the result of many years of experience in motorhome construction. While the smaller models on an Iveco chassis are especially attractive to a casual clientele, the larger models stand for substantial spaciousness, high payload and impressive performance.

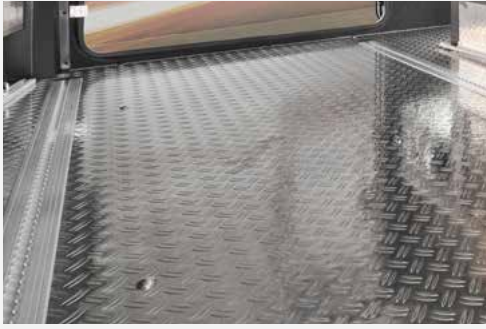

Price list

Exterior

Heavy equipment strongly strains the garage floor. The aluminium checker plate ensures permanent protection, regardless of what you are transporting!

Thanks to the specially insulated and separately heatable cabin layout, the Cruiser models are ideally suited to winter use.

A stable pipe system, i.e. no flexible hoses, offers water pressure and supply just like at home. Smooth pipe walls prevent deposits and ensure excellent hygiene.

The heatable double floor with enormous internal height offers generous storage space. Storage space flaps that swivel 180° make loading bulky objects easy.

SPECIALITIES OF THE HOUSE

With the separate sleeping space in the alcove, the remainder of the floor plan and especially the living and kitchen areas have particular importance. At Concorde, kitchens are a speciality of the house. Every corner is utilized with an intelligent storage space system. Function and design are exemplary. The technical equipment satisfies even kitchen professionals. The living area, with Concorde's round seating group at the rear, offers fantastic impressions and views. Ergonomically optimized seating and living-room furniture convey an unparalleled atmosphere.

THE POWER PACK

The Cruiser on Atego impresses with its rear-wheel drive, unbridled power and the highest level of functionality. A high seat position provides optimum all-round visibility for a safe and enjoyable driving experience. It is a winterproof alcove of the luxury class which – with a special sense of space, substantial size and payload as well as an extremely high level of performance – ensures uninhibited mobility. Four especially comfortable beds and an intelligent storage space concept offer plenty of room for people and materials alike.

Price list

Exterior

The integrated awning perfectly blends into the vehicle body both visually and aerodynamically. As an almost invisible accessory, it does an excellent job of providing plenty of shade.

The reclining chair – an additional piece of furniture with relaxing recliner/seat function – complements the existing range of comfortable seating.

The multifunctional adjustable hot water heating system creates three different warm areas which can be heated separately from each other. By means of a thermostatic valve, the temperature of the living room, wellness area a sleeping space can be independently controlled. The two-circuit underfloor heating enables separate control of living room and bathroom.

The on-board 230 V power supply in the standard version is ensured by two gel batteries with a total capacity of 340 Ah and a sinus inverter (1600 W continuous output and 3000 W peak output).

PREMIUM LUXURY ACROSS THE ENTIRE LINE

Concorde Liners are in a class of their own. Exceptional high-end furnishings and maximum use of space are perfectly combined with one another here.

This class is paired with impressive mass. Based on the Mercedes-Benz Atego with 299 hp output or the Mercedes-Benz Actros with up to 450 hp output, this premium vehicle, with a gross vehicle weight of more than 12 tonnes, a length of up to 11.50 m and width of nearly 2.50 meters, moves majestically along roads and through the countryside.

Price list

Exterior

Light creates atmosphere. Indirect lighting in the canopy illuminates the furniture and makes the wood shine, even at floor level thanks to the dimmable LED lighting in the skirting boards.

The active dashboard surrounds the driver with ergonomic curves. The monitors positioned on either side of the steering wheel are easily visible and the function switches and levers are within optimum reach.

The multifunctional adjustable hot water heating system creates four different warm areas which can be heated separately from each other. By means of a thermostatic valve, the temperature of the driver's cab, living room, wellness area and sleeping space can be independently controlled. The two-circuit underfloor heating enables separate control of living room and bathroom.

The emergency brake assistant and the lane departure warning system provided as standard ensure your safety. The radar system of the emergency brake assistant detects obstacles and intervenes if there is no driver activity. The camera of the lane departure warning system helps the driver stay in lane.

CENTURION

THE MEASURE OF ALL THINGS

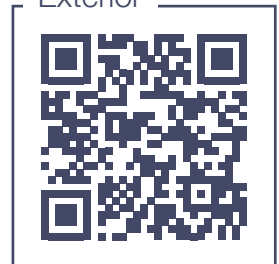

The absolute high-end motorhome is called Centurion. These vehicles, as partially integrated or integrated version, combine everything that deserves the label of luxury and are the result of years of successful experience and development.

Comfort on the highest level, technology of the highest standard, innovation in all areas and unique design and styling all go to make this vehicle our masterpiece.

Price list

Exterior

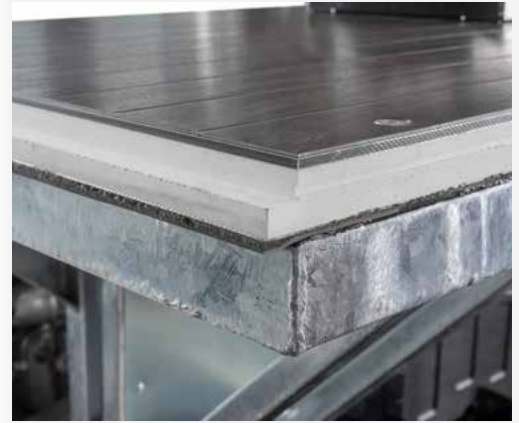

The technical masterpiece expands the living area and kitchen at the touch of a button, creating a room divider and a „star-worthy“ workplace thanks to the extendable worktop. The Havana lounge with relax function is a novelty and brings unimagined relaxation and comfort to the motorhome.

An aluminium frame in the Centurion's double floor ensures an extremely stable "basement construction" by connecting the auxiliary frame with the living area floor, creating a solid box.

This clever construction means that furniture and wall constructions remain firmly connected in the long run.

Concorde lift-up system not only a technical highlight. This rear garage door is raised hydraulically.

The hydraulic cylinders of the lift prop system are mounted on load-bearing outriggers which increase the span by approx. 90 cm and thus ensure a more stable stand.

IMPOSING APPEARANCE AND PURE LUXURY

Be inspired by our partially integrated model, which owing to its striking original driver's cab with wide-beam bar and four headlights as well as air horns mounted on the left and right, is an impressive sight.

The draped bus flaps give the vehicle a harmonious overall appearance, while the electronic locks and gas pressure absorbers are safely located in the protected area of the double floor. Thanks to the aluminium hinge strips with rubber core on which the flaps are mounted, no water can penetrate between the side wall and flap when the flap is open.

An absolute technical masterpiece is the living area with kitchen, which can be extended at the push of a button – thanks to the slide-out. The Havana lounge provides you with an unexpected level of relaxation and comfort in your motorhome. The monoblock outdoor staircase with large, illuminated steps and a stainless steel handrail ensures absolute safety when boarding.

THE CONCORDE FAMILY

During the year, we hold various events in Aschbach where the focus is on family togetherness. For us, a Concorde gathering means: Meeting up with friends, enjoying regional delicacies together, exchanging experiences and stories in a pleasant atmosphere where owners of other motorhome brands also always feel welcome and at ease.

Our guided tours too are always met with great enthusiasm because they provide a wonderful opportunity to go on short daytrips with friends and discover new things, to enjoy delicious meals or to explore outstanding landscapes and places of interest.

The well-prepared trips, which are conducted by foreign-language tour guides, give newcomers in particular the chance to get to know the Concorde family and the various vehicle models.

The 15 Concorde brand clubs organise joint gatherings and trips independently of each other. Anyone interested can plan their own gathering and also invite friends to come along to the event.

Our Concorde community members have an extremely diverse range of interests. But what connects us all is our love and passion for the Concorde brand.

For example, classic car fans meet up with people actively involved in car or motorcycle racing or with diving enthusiasts to talk and celebrate together. Owing to the sports activities, we have in the past been able to attract excellent cooperation partners who themselves are enthusiastic participants at the events.

It's easy to see why: Everyone finds their place and receives a warm welcome in our big, happy Concorde family.
